

TV, RADIO & DIGITAL MEDIA

ABOUT THE SHOP

This program is a comprehensive, process-centered program that prepares students interested in the area of multimedia production.

Throughout their time at Tech, students in TV/Radio will master audio & radio production, advanced video editing techniques, studio & news production, chromakey, stop-motion animation, film production, and more!

We offer an immersive and inspiring environment that allows you to fully unleash your creativity. Students are encouraged to showcase their own interests in their projects!

Students leave with a huge head start in the field of TV, Video, Film, and Audio Production. Graduates hold positions as News Anchors, Radio Station Promoters, Editors, Photographers, Field Camera Operators, Visual Effects editors, and even a TV Production Teacher!

Come and join us in a fast-paced, professional, and creative environment, all while obtaining the tools needed to succeed in the world of Digital Media!

COLLEGE CREDIT EARNED

8 Credits from Centenary University:

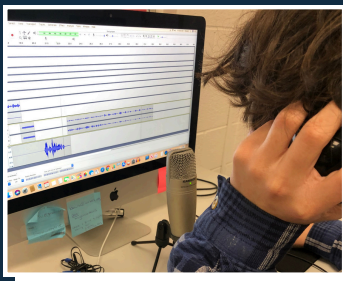

- Television Production 1 (4 credits)
- Digital Filmmaking (4 credits)
- Credits may be transferred to the post-secondary institution of your choosing

EVENTS/TRIPS

- William Paterson University Communications Building Tour
- Montclair State University College of Communication and Media Tour
- Fox News Channel Station Tour
- WFMZ Station Tour
- Alumni Presentations
- Projects for outside clients such as Family Guidance Center of Warren County, the Warren County Prosecutors office, Saint Phillips and James School, and more!

GO FOR THE GOLD AT SKILLSUSA!

Each year, TV and Radio students participate in a national competition that challenges their skills across various categories, including Audio/Radio Production, Video Production, and Film Production. Gold medalists progress to the national level, striving for a top-three finish. The TV, Radio & Digital Media program has thrived, securing numerous state-level gold medals, including a first-place victory in 2023 and a Silver Medal at the national stage.

Meet The Instructor

Having studied Television Production in high school, Mrs. Seugling gained a significant advantage before pursuing a Bachelors Degree from William Paterson University in Broadcast. With over a decade of experience in the professional realm, she has worked with notable networks such as VH-1, MSNBC, MLB, and Fox News, before transitioning to her current role at WCTS. She has been at WCTS since 2013 and comes to work each day excited to give students the jump start she was so fortunate to have
